Getting the Message Across

DRAPER

Quality easels from one of America's oldest and largest manufacturers of visual communication products.

DRAPER Easels stand rock-solid on wobble-proof legs, fold easily for transport or storage. Numerous exclusive features insure effective, trouble-free visual presentations time after time.

DRAPER offers the largest selection of paper pad, dry-erase, poster and decorative display easels in the world. From heavy duty models to decorative poster units, DRAPER offers easels for every situation. Careful attention to quality, function and appearance, plus an expanded range of decorative finishes, make DRAPER the world's premier line of professional easels.

In paper pad and writing surface easels, DRAPER offers two separate standards—DR Series and OP Series. Both are carefully assembled of highest quality components with all-riveted construction.

DRAPER Easels—for effective visual presentations.

DR Series

Constructed entirely of highest quality structural grade aluminum alloy. Exclusive features such as a spring-loaded paper pad clamp, ball detent leg locks, hinged pen tray/chart shelf, hinged chart holders and a hinged storage compartment for writing instruments make DRAPER DR Series Easels the preferred choice of professional presenters.

OP Series

OP Series Easels use many of the same high quality components as the DR Series, and feature a spring-loaded paper pad clamp and ball detent leg locks. OP Series Easels have a trim, fixed pen tray, and do not have hinged chart holders or a storage compartment for writing instruments. OP Series Easels feature a rugged, magnetic steel backboard.

DR800—Porcelain Whiteboard/Gold Anodized

DR850—Porcelain Whiteboard/Black Epoxy Powdercoat

All the quality and convenience of DRAPER DR Series Paper Pad Easels, plus a built-in white porcelain on steel writing surface. The porcelain steel writing surface is smooth, framed on all four sides and has no visible fasteners. Use it with a paper pad for prepared presentations or to preserve notes; without paper for impromptu “chalktalks”. Chip-proof porcelain wipes clean instantly, never discolors. Useful for magnetic displays, as a paper pad or poster easel, too.

DR650—Powdercoat Whiteboard/Black Epoxy Powdercoat

Now you can have a lightweight, sturdy all-aluminum powdercoat easel, plus a dry erase writing surface! Provides the functionality of the DR850, at a lower cost. Legs, paper clamp and braces are finished in black, while the panel and its rivets are finished in dry erase white. The DR650’s powdercoat dry erase finish will stand up to the toughest use and still wipe clean. All-aluminum construction makes a lighter easel without sacrificing strength.
